

**Leading The
Automation
Age.**

WHO WE ARE?

At AIL, we offer Industrial Automation Solutions that accelerate digital transformation every day, as per market needs. With over 20 years of exposure to the entire automation life cycle, we ensure seamless integration of all components and competencies.

Our core activity for industry is of automation products sales with complete integration with commissioning for machine & process requirement as per customer satisfaction.

Apart from these, we also design, manufacture, and supply all types of electrical panels such as HT Panel, PCC Panel, MCC/IMCC Panel, APFC Panel, VFD Panel, PLC Panel, RIO Panel, Purge Panel and Customized Control Panels.

We have a team of engineers that are experts in pre & post sales support for our products, as well as qualified engineers who provide service and maintenance for the AC Drive, Servo Drive, PLC, SCADA, and DCS systems

MISSION & VISION

IT'S NOT ABOUT
IDEAS, IT'S ABOUT
MAKING IDEAS HAPPEN.

Vision: Our vision is to be the market leader in the design, distribution and implementation of industrial automation systems.

Mission: We aim to attend to our customers and continually strive to provide perfect service, distribute quality products and offer technologically advanced solutions.

TURNKEY SOLUTIONS

AIL provides turnkey solutions for electrical, automation, and instrumentation across a wide range of industry sectors. We collaborate with industry leaders to provide a comprehensive portfolio of products, equipment, and services that span the whole project life cycle, from concept to completion.

Our primary area of competence is the efficient management of turnkey projects. Oil & gas, metals, utilities, material handling, power plants, textile, chemical & pharma, solid waste management, water treatment, and supply management are just a few of the industries we've worked with.

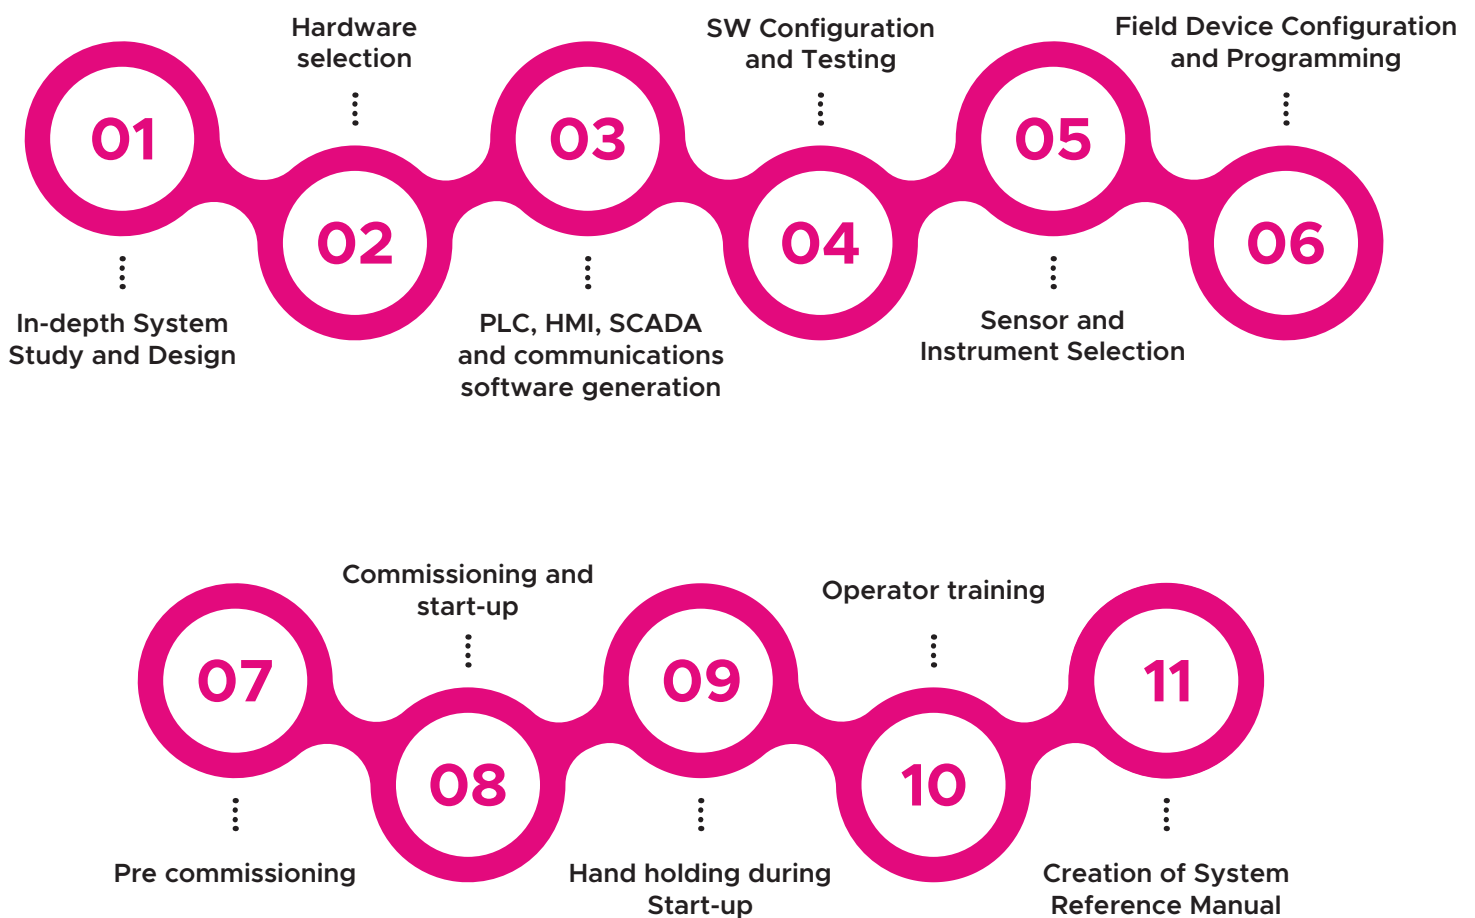

All in all we have completed more than 50 Turnkey Projects successfully with 100% satisfaction assured.

OUR ACTIVITIES

Being at the forefront of the automation solution industry in India, we emphasize continuous innovation through R&D with actively inventive Innovative Systems & Automation.

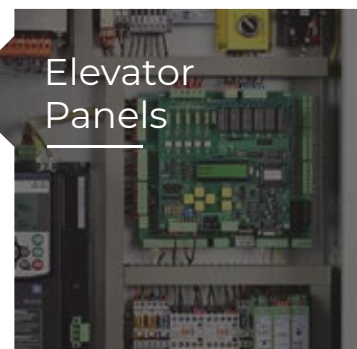

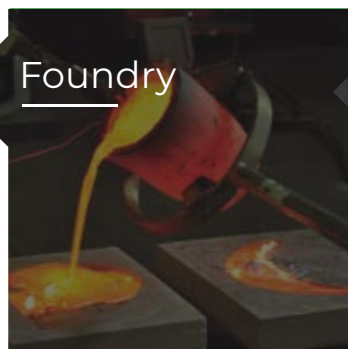

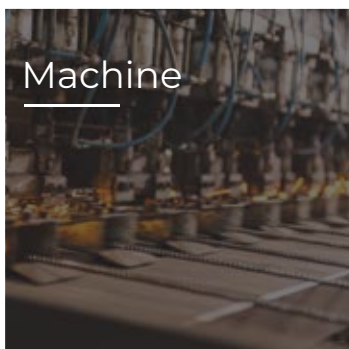

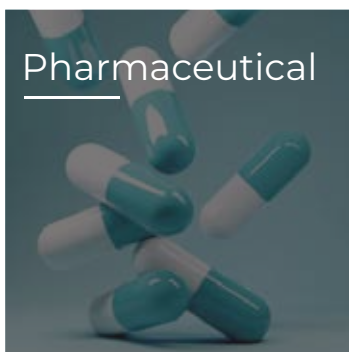

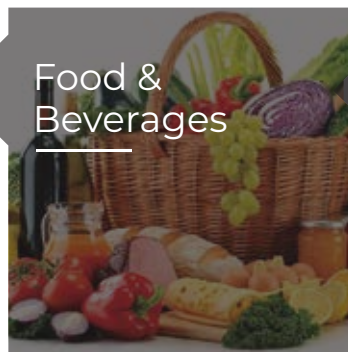

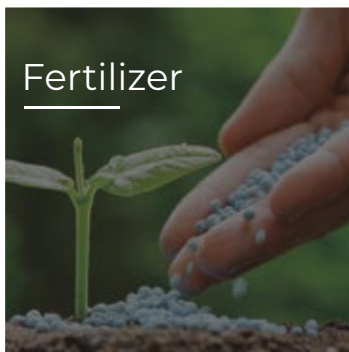

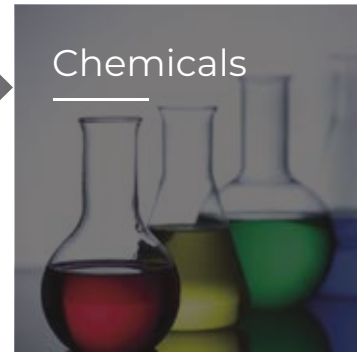

Our expertise is in assisting and boosting your company's bottom line by providing value-added Industrial Automation services. From ideation to commissioning, our technical knowledge and domain expertise have carefully stretched their wings in the sector and are ready to assist you. These services will be useful to OEMs, end customers with large technical teams, system integrators and consultants.
